11 December 2024

Dear Parent/Carer,

On Tuesday 3<sup>rd</sup> December, we invited you to join us for the “Help your Child revise” evening to allow us to share the most effective revision strategies and give top tips in preparation for the upcoming exams. We would like to take this opportunity to thank everyone who attended the evening and has taken the time to give us some feedback, which will allow us to make any improvements suggested for future sessions.

Many parents also completed a parent view questionnaire after the evening, thank you, to those parents who took their time to provide valuable feedback. We are always striving to improve, and working together will help us in achieving our goal of making all our students become successful young adults and a great educational establishment. The feedback was overwhelmingly positive. One common area to improve was that parents expressed the common view that they feel by having this session in previous years would have been beneficial. Moving forward we will hold the revision evening ever year from now on onwards. The feedback also suggests that we share the resources on line and so I have included links to all the resources used in the evening, and also links to other useful revision resources such as knowledge organisers and exam timetables .

We support our pupils to the best version of themselves, this is lived through our value of Aspiration. By supporting pupils to be well prepared for their examination we are giving students the tools to meet this goal. Another of our Values is Community, which is why we believe that hosting this evening to share these revision strategies will allow us all to support your child through each exam series and achieve their full potential.

You can access many revision resources on our school website to help support your child through exams by clicking the links below.
