

Understanding your child's progress report

In year 7, students are split into 5 bands based on their SATS results, band 1 being the highest 20% of the year group, band 5 being the lowest 20%

This is their **BASELINE BANDING**

After each assessment, the year group is once again sorted in 5 bands based on the results.

This is their **CURRENT BANDING**

If your child's **CURRENT BANDING** is higher than their **BASELINE BANDING**, their progress is **ABOVE** where we expect them to be

Mid Year Assessment Results
Band: The results below in core subjects show your child's performance expressed by the band in which they placed relative to their peers & we track ongoing performance throughout the year.

Banding

If there are blanks in the table below, this means your child hasn't sat an exam in that subject.
Here is a short recording that explains your child's reports in more detail - [Understanding Your Child's Report Card](#)

Please be aware that your child's progress is tracked vs Y7 baseline band

If your child's **CURRENT BANDING** is lower than their **BASELINE BANDING**, their progress is **BELOW** where we expect them to be

If your child's **CURRENT BANDING** is the same as their **BASELINE BANDING**, their progress is **ON** target

Your child's attitude to learning is then scored out of 4 for the following:

Behaviour: How focused your child is in lessons & class participation

Classwork: How well your child presents & completes work within lessons

Independent Study: Completion of homework set by lesson.

Attitude to Learning

Please note for KS3 Independent Study is only set for English, Maths & Science
